

HR AS A SERVICE

Powering your HR Function

Do you find your HR function just can't seem to catch up, spending all their time on day to day activities leaving no time for important programs and projects?

Orchard provides a powerful cloud HRIS and outsourced Human Resources services to support all aspects of the employee life cycle.

Core HR Administration

We maintain your employee profiles as a single source of truth, covering all employee adds moves and changes from hire to retire.

Our services are enabled by a world class HR Information System which delivers a consumer-style easy to use application experience for all employees.

Onboarding

Our onboarding service provides your new employees with the information they need before they start, collects the information that they need to provide, ensures that accounts for email and other systems are created for them, and manages the employee assets that they need.

Great onboarding creates employees that are engaged and productive from their first day on the job.

HR Enquiry Centre

We can provide an omni-channel HR enquiry centre that all employees use to report issues and request HR services, or look up information in your HR Knowledge Base.

We take the noise out of employee support so that your team can be more focussed.

Performance Management

Orchard can support your ability to transform your Performance Management processes to best practice.

Align employee activities with your business strategy by setting cascading, relevant SMART goals; monitor individual, team, or company-wide progress with an easy-to-use next-generation interface.

Learning & Development

We empower your employee learning and development systems to improve skills, develop leaders, and reduce compliance risk.

Manage a range of learning programs and curricula incorporating e-learning, face to face training, and informal mentoring or networking with and between your subject matter experts.

Advanced & Custom Features

Our services can be extended by deploying additional functional modules, adding advanced reporting and custom analytics, accessing consulting capability, designing mass update or restructuring projects, or developing advanced integration with your other strategic information systems.

- ✓ **Gain access to world class technology, processes and tools without financial investment**
- ✓ **Improve your ability to provide strategic leadership to your business**
- ✓ **Elevate the profile of the HR Group with employees, managers and your Executive Team**

Great People, Smart Business

Orchard's HR Outsourcing Services provide peace of mind, knowing that all of the day to day activity related to attracting, hiring, onboarding, engaging, managing, developing, and retaining your staff are looked after by our professional team.

We include a world-class HR Information System; manage all adds, moves and changes to employee profiles; provide easy to use self-service options; and train our staff to answer HR enquiries from your managers and employees.

Your scarce and valuable HR resources can focus their time developing and executing strategic programs that add value to your business.
